

Personal Protective Equipment (PPE) – HAZARD ASSESSMENT FORM

Job Classification: _____

| | | | | |
|---|------|----------------|--------|-----------|
| HEAD HAZARD | | | | |
| Operations that present a high risk for injury to the head can include working under machinery or other workers, working on energized electrical equipment and/or working with chemicals. | | | | |
| CIRCLE ALL HAZARDS THAT ARE OBSERVED: | | | | |
| Chemical Splash | Burn | Electric Shock | Impact | Heat |
| Particulate | | | | NO HAZARD |

Description of hazards: _____

PPE Required: _____

| | | | | |
|---|-----------------|------------------|---------|-----------|
| EYE HAZARD | | | | |
| Operations that present a high risk for injury to the eyes can include working with acids and chemicals; chipping; grinding; sanding; welding; and woodworking. | | | | |
| CIRCLE ALL HAZARDS THAT ARE OBSERVED: | | | | |
| Chemical Splash | Burn | Electric Shock | Impact | Heat |
| Dust | Light Radiation | Flying Fragments | Furnace | Welding |
| Brazing | Mists | Fumes | | NO HAZARD |

Description of hazards: _____

PPE Required: _____

| | | | | |
|--|------|----------------|--------|---------------|
| HAND HAZARD | | | | |
| Operations that present a high risk for injury to the hands can include cutting materials, operating machinery, working with chemicals and working with hot objects. | | | | |
| CIRCLE ALL HAZARDS THAT ARE OBSERVED: | | | | |
| Chemical Splash | Burn | Electric Shock | Impact | Sharp Objects |
| Crushing | | | | NO HAZARD |

Description of hazards: _____

PPE Required:

| | | | | |
|--|---|----------------|--------|---------------|
| BODY HAZARD | Operations that present a high risk for injury to the body can include cutting materials, working near moving machinery, working with chemicals and working with hot objects. | | | |
| CIRCLE ALL HAZARDS THAT ARE OBSERVED: | | | | |
| Chemical Splash | Burn | Electric Shock | Impact | Sharp Objects |
| | | | | NO HAZARD |

Description of hazards:

PPE Required:

| | | | | |
|--|--|----------------|--------|---------------|
| FOOT HAZARD | Operations that present a high risk for injury to the foot can include carrying or handling materials that could be dropped; pushing or pulling objects on carts or wheeled devices; and working with chemicals. | | | |
| CIRCLE ALL HAZARDS THAT ARE OBSERVED: | | | | |
| Chemical Splash | Burn | Electric Shock | Impact | Sharp Objects |
| Rolling Objects | Compression | | | NO HAZARD |

Description of hazards:

PPE Required:

| | | | | |
|--|--|---------|---------|-----------|
| RESPIRATORY HAZARD | Operations that present a high risk for injury to the respiratory system can include spraying, dipping, welding, cutting, working with chemicals and any other process that creates dust as a byproduct. | | | |
| CIRCLE ALL HAZARDS THAT ARE OBSERVED: | | | | |
| Chemical Splash | Dust | Welding | Dipping | Cutting |
| Mist | Fumes | | | NO HAZARD |

Description of hazards:

PPE Required:

| | | | | |
|--|----------------------|--|--|-----------|
| NOISE HAZARD Operations that present a high risk for damage to employee hearing can include any process that exposes employees to decibels higher than the time-weighted allowance. | | | | |
| CIRCLE ALL HAZARDS THAT ARE OBSERVED: | | | | |
| Noise 85-90 db | Noise 90 db & higher | | | NO HAZARD |

Description of hazards:

PPE Required:

| | | | | |
|--|-----------|--|--|-----------|
| ELECTRICAL HAZARD Operations that can present a high risk for electrical injury can include work on any high-powered lines or conductors and work on or near any energized machinery. | | | | |
| CIRCLE ALL HAZARDS THAT ARE OBSERVED: | | | | |
| High voltage contact | Flash-arc | | | NO HAZARD |

Description of hazards:

PPE Required:

Completed By:

Completion Date:

These hazards should be reviewed on a yearly basis or whenever there is a substantial change in operating procedures that could affect employee safety.
